I was first introduced to IXL approx. in 1996 at a flea market in Quartzsite and have been using ever since. I had an old Cockshutt tractor and the tranny would run so hot you couldn't put your feet on the plate covering it. After adding the required amount of IXLi^y stayed cool.----- My 6ft Toro Lawn Mower also runs cooler and without trouble after adding IXL. I never want to be without it. It saves time ,trouble, and money.
